

With regard to our WISCONSIN, No Call List.. I understand that our No Call List is in jeopardy. As it does protect over 80% of the States population, I am voicing my opinion-Please leave it as it is- - harrassment thru these phone call solicitation that we do not want in our homes is very important to keep on the NO CALL LIST for our State. Only if there are plans to stricter enforcement of the Federal NO CALL LIST, which I also registered for --would not allowing the State list to exist and protect our privacy. Thank you,
